Welcome to OmniLearn!®

"Transforming individual and organizational knowledge into measurable performance"

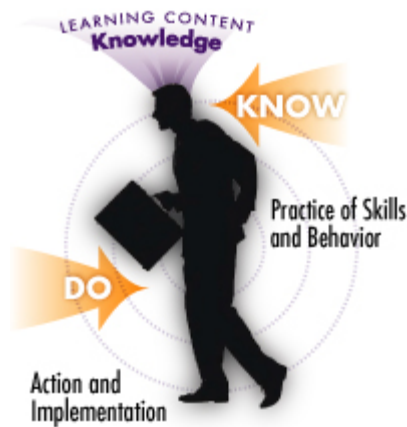

The OmniLearn® Difference

You have hundreds of choices for online learning ... But only one choice if you want to be sure knowledge gets put into practice.

A key to success in high-performing businesses is the ability to transform knowledge into practice. There are hundreds of online learning products – but only one ensures that your learners integrate knowledge into their work through real-time practice and mastery assessment.

At last, using the patented OmniLearn® Learner Support System, you can quickly develop, deliver and administer a complete learning process designed to ensure mastery of performance-based skills and behaviors. By **linking** learning, practice, assessment, reinforcement, resources and performance snapshots, OmniLearn® empowers you to take accurate performance measurements so you can effectively evaluate the return-on-investment (ROI) for your learning programs.

THE COMPLETE LEARNER MODEL

LEARNING LINKAGE RAINBOW

Delivering Learning in Two Minutes a Day

OmniLearn® facilitates the timed delivery of learning, practice and reinforcement to an increasingly mobile work force. Learners access lessons at their own pace, with delivery and completion in less than two minutes. Guided Practice Activities are delivered to email, pager, cell phone or PDA, allowing learners to integrate daily practice into the workday no matter where they are.
